RAISED SUSPENSION RIDE HEIGHTS (mm)

| < > | OE - After |
|-------|------------|
| FRONT | 516 - 561 |
| REAR | 541 - 590 |

The raised ride heights (Eye Brow Heights) are measured vertically from the centre of the wheel to the edge of the guard. These heights are provided as approximate measurements only and can vary depending on the age of the vehicle and accessories fitted. Variations from factory will mean not all vehicles will be raised by a set amount. They will however end up near these heights. We recommend measuring the vehicle first for indication on achievable lift.

All raised height measurements are listed as a guide only.

COMPLETE SUSPENSION KITS

| 2x Coil Springs 2x Struts 2x Shock Absorbers 2x Leaf Springs 1x Bush Kit 2x Shackles 2x Pins 4x U/Bolts | | |
