

**The
Ultimate
SUSPENSION**

The Ultimate Lubricant Range

ATF DEX III

Premium quality automatic transmission fluid based on high Viscosity index Pure Hydro - Syn synthetic oils and carefully selected additives. ATF DEXIII is blended to meet the stringent requirements of leading automotive transmission manufacturers.

Performance Features

- ✓ *Friction modified* - Formulated to provide consistent, reliable, and smooth and trouble free operation of automotive transmission systems.
- ✓ *Exceptionally high oxidation resistance* – ATF III is resistant to oil degradation and assists with keeping automatic transmissions clean.
- ✓ *Excellent shear-stability* - A special ‘VI’ improver minimises the changes in viscosity with operating temperature.
- ✓ *Dependable anti-wear and gear protection* - Long component life.
- ✓ *Low temperature performance* - Excellent oil fluidity at low temperatures

Applications

Recommended for hydraulic applications that require specific oils to meet - ISO VG 32-46-68 viscosity requirements Use in passenger car automatic transmissions. Heavy duty automatic transmissions. Power steering units.

Specifications

Allison C-4 ZF TE-ML 05L ZF TE-ML 09

Approved under previous versions of MERCON® and DEXRON®-III.

The Ultimate SUSPENSION

HYDRO-SYN®

What makes our products distinct from competitors?

It's in the base stock... The Ultimate Lubricant Range is designed around a HYDRO-SYN® base stock oil. This gives the lubricants dependable qualities such as improved oil pressure, a larger operable temperature range, a greater resistance to oxidation and degradation, and the grit to handle 4WD applications.

The HYDRO-SYN® component of our oils allows us to guarantee maximum performance to customers.

Quality, Value, Experience

The Ultimate Suspension, a leading name in aftermarket 4WD and commercial vehicle suspension, prides itself on being at the forefront of today's suspension technology.

At a time when expansion and innovation is far from commonplace, The Ultimate Suspension is continuing its push forward into international markets, widening its product range and creating stronger Australian presence in the global high-tech community.

The Ultimate Suspension's reputation in the development of suspension systems as a complete package has not only achieved recognition in the aftermarket but valuable alliances with original equipment manufacturers both domestically and abroad. The off road racing circuits including the Australian Safari have been extensively utilised in the development and prerelease evaluation of new models. Ken, through his technical association with companies such as Toyota, Daihatsu, Nissan, Nismo, Isuzu, Mitsubishi, Asia Motors, Proton and Bufori just to name a few, has gained international recognition for specific built suspension systems. The Ultimate Suspension successes, through domestic use and in mining and military applications, have won us many accolades and orders to return income to an Australian based industry.

The Ultimate Lubricant Range has now provided a dependable and reliable oil to meet the existing reputation of The Ultimate Suspension team.
